

COMPREHENSIVE FLOOR CARE SYSTEM

Bona® Swedish Formula® Hard Surface Floor Care System

Let our microfiber cleaning system keep your hard surface floors looking beautiful—easily and safely. Your kit contains:

- Specially-designed Bona MicroPlus mophead with 3-pc. pole. The Bona MicroPlus mop's low profile and easy-to-maneuver swivel-head makes it the perfect cleaning tool for hard-to-reach areas such as under furniture and cabinets, around doors or in tight corners.
- Washable MicroPlus cleaning pad with dust absorbing microfiber. Velcro-like strips make changing the pad effortless. Reusable up to 300 washes.
- 32 oz. spray bottle of Bona Swedish Formula Hard Surface Floor Cleaner
- Hard Surface Floor Care Guide

ADVANCED TECHNOLOGY CLEANING SYSTEM

Keeping your floors beautiful for life—
the MicroPlus™ way.

For over 85 years BonaKemi, the worldwide leader in wood floor finishing technology, has been providing professionals with finishes, cleaners and polishes to maintain the beauty of wood floors the world over. Bona's Swedish finish technology has now been applied to produce this specially-formulated cleaner for all types of hard surface floors.

New Microfiber Technology

Now, we've added a new dimension to our hard surface floor care system—microfiber technology.

Instead of leaving dirt on the floor like ordinary cotton mops, our MicroPlus mop with microfiber attracts dust and common household allergens. When used with Bona Hard Surface Floor Cleaner, it actually absorbs dust and dirt, wicking it away from your beautiful floors.

What is Microfiber?

Microfiber is a thread made up of wedge-shaped polyester filaments and a nylon core. The fibers, oil and water-attracting polymers are woven into masses of tiny hooks and loops. These hooks and loops actually cut through dried-on stains, attracting and absorbing dirt and microparticles.

Simple and Environmentally Safe

MicroPlus microfiber cloth is not treated with any chemicals. Its ability to capture dirt, dust and allergens is due to its unique microfiber structure, making it the Environmental Choice® for cleaning.

Revolutionary microfiber threads attract and absorb dirt, microparticles and common household allergens.

CLEANING

Caring for your floor is as easy as 1, 2, 3.

Bona® Swedish Formula® Hard Surface Floor Cleaner

Our waterbased Swedish Formula Hard Surface Floor Cleaner is specially-designed for hard surface floors. Unlike all-purpose cleaners, it quickly cleans tough stains and spills—from dried spaghetti sauce and red wine to scuff marks—all without dulling your floor's beautiful finish or leaving any residue. There's no mixing or diluting; Bona Hard Surface Floor cleaner is full-strength and ready to use.

1 VACUUM

Vacuum, dry mop or sweep to remove any loose dirt or grit. The best method of removing dirt and grit is vacuuming with a soft brush attachment on your vacuum. If using the Bona® MicroPlus™ mop to dry mop, remove any loose dirt or grit after dry-mopping by rinsing with water and wringing out the mop pad prior to cleaning the floor with Bona® Swedish Formula® Hard Surface Floor Cleaner.

2 SPRAY

Lightly mist a 4' x 6' area of your floor or directly mist the cleaning pad with Bona® Swedish Formula® Hard Surface Floor Cleaner.

3 CLEAN

Using a slightly dampened, well wrung-out Bona MicroPlus™ cleaning pad, thoroughly clean the floor surface using your Bona MicroPlus™ mop. Finish one area before moving on to the next.

When your mop pad becomes soiled, rinse with water, thoroughly wring out the pad and continue cleaning with Swedish Formula Hard Surface Floor Cleaner. When the mop pad becomes excessively soiled, launder and replace with another clean mop pad. Continued use of excessively soiled pads may cause streaking. Your Bona MicroPlus™ cleaning pads are reusable and washable.

Do not use any fabric softeners, dryer sheets or bleach on your MicroPlus cleaning pad as these products will diminish the natural cleaning characteristics of the microfiber.

When a spill occurs, soak up the liquid right away. Mist the area with cleaner and wipe with your Bona MicroPlus™ mop or a clean, soft cloth.
